

Useful notes about international money transfer

1. An international transfer would take up to a **maximum of 4 weeks** to be able to classify the payment with the applicant number on the portal. Therefore, transfer the tuition fees as soon as possible.
2. Banks usually charges a transfer-processing fee. Please make sure you transfer the correct amount including the processing fee.
3. Keep your official transfer receipt.
4. We are aware of the fact, that many of you are waiting for an appointment to apply for visa and that some German General Consulates and Embassies have long waiting lists. If the reason why you do not transfer the tuition fees is that your visa application is still pending, we recommend you do the transfer in any case, as KIT will refund the entire semester fee if you withdraw before enrollment.
